659 Carpenter Avenue, Mooreville,
NC 28115*

The purpose of the Canine Seizure Assist Society of North Carolina is:

- to train service dogs for people with epilepsy
- to train trainers of seizure assist dogs
- to educate the public on the use of service animals

Our services include assisting in the selection of a dog with the desired temperament for seizure assist. Our trainers then go to the home of the client and provide advice and assistance in training their dog. After completing all levels of obedience training, the dogs work on in-depth socialization. All dogs are taught the appropriate skills for their human's individual needs and their particular type of seizures.

Snacks and drinks will be available!
